

Fishbowl Solutions Add-On Software for PTC Products

Who We Are

Fishbowl Solutions provides add-on software, consulting services, and customizations for PTC's Windchill® and Creo® products. Fishbowl's automation and integration software promotes better return on investment from your PTC products by solving costly and frustrating knowledge sharing problems. In addition to our packaged software, Fishbowl develops custom applications built specifically to the needs of the customer. Fishbowl is a Gold-Level member of the PTC Partner Advantage™ program.

LinkExtract™

Fast & Easy Data Extraction

- Extract data from other PDM/PLM systems
- Support for PDMWorks, EPDM, Windchill, and more
- Extracts metadata and parent-child relationships
- Automatically preps the data for loading with LinkLoader

LinkLoader™

Fast & Easy Bulk Loading for Windchill

- Load from file systems and others
- Support for Creo, SolidWorks, AutoCAD, Inventor, Documents, Parts, etc.
- Validate data and find duplicate files
- Map revision, lifecycle state, attribute metadata, etc.

LinkPortal™

Simple and Secure Access to Windchill Information with LinkPortal

- Easy access for non-Windchill users
- Grant access in various ways
- Access representations like PDF, IGES, STEP and also access Native
- Admin tools like audit history for review purposes

Windchill + Teams Connector

Publish and share content between Microsoft Teams and PTC Windchill

- Deliver access to Windchill info natively withing MS Teams
- Speed up product development through improved collaboration
- Utilize the easy-to-use, familiar Microsoft interface to organize and edit documents

LinkAccess™

Automate and Integrate Windchill Tasks

- Available in Trigger, On-Demand, or Batch mode
- On the fly and event driven actions like creation of viewables such as PDF, IGES, STEP and more
- Framework for interfacing with other PLM, Content Management, and ERP systems

Fishbowl ThingWorx® Apps

Improve User Experience & Productivity

- Search Windchill and other repositories from one location
- Avoid directly assigning each user's roles
- Map group memberships to values within a Single-Sign-On system

Bounding Box Application™

Automatically Create and Populate Parameters with Bounding Box Dimensions

- Calculate bounding box dimensions for the current part/asm
- Populate dimensions from Creo part and assembly
- Improve accuracy and automatically show drawings in Windchill

DXF Flat Pattern Automation™

Quickly Create Sheet Metal DXF Flat Patterns

- Fully automate your DXF flat pattern creation across an entire assembly
- Drastically reduce errors caused by manual work
- Save time and remove the burden of flat pattern creation from CAD users

Custom Application Development Services

We Automate. You Innovate.

Are you looking for ways to save time? Do your users perform repetitive tasks? Do you manually enter information into another application or system? Do you use ModelCHECK™? Fishbowl Solutions can create custom applications to meet your needs. Examples of past solutions include:

- Automating manual tasks
- Creating integrations with external applications
- Creating custom checks in ModelCHECK™
- Ensuring your Creo data meets company standards and best practices
